GETTING STARTED

You can choose the length of each game. Either 5, 10 or a 15 minute game.

Finally, you must pick your starting lineup and get ready for kickoff; intense gridiron action to follow!

RULES & INFO

INJURIES

As with real football sometimes injuries occur and you must swap out injured players. Do this by using the same screen as the lineup select at the beginning of the game.

COLLEGE CLOCK RULES

The in-game clock is set by college football rules. The clock continues to run until you get an incomplete pass or get a first down.

TIMEOUTS

Can't decide on a play and you're running out of play clock? Then take one of your three timeouts. Just hit select while choosing a play and hit timeout. This also allows for …

SUBSTITUTIONS

If a certain player isn't making the grade, bench him and find a replacement. You can substitute anytime by calling a timeout from the play select screen.

PENALTIES

After a penalty occurs, you have the option to accept or deline it. A light blue colored football will appear on the field showing you the yardage of the penalty.

TOUCHBACKS

The only way to get a touchback is to run out of the back of the endzone after a kickoff. This places the ball on the 20 yard line.

PRO LEAGUE TOURNAMENT

For single player mode, you can select any of the top 4 teams from the first bracket. As you advance in the tournament, you play each of the teams from the first bracket as you work your way up to the champtionship game.

On 2 player mode, you can pick from any of the 6 teams to play with because it isn't a tournament but a single game.

On 2 player Co-Op mode, you can only pick from any of the first 4 teams because Co-Op mode can be played all the way up to the championship game.

TIPS

Tips!

-Running diagonally causes separation between you and the defense, allowing you to gain a few extra yards each play.
-As a defender approaches and prepares to tackle you, you can juke by changing your direction with the D-Pad to make him miss the tackle and break open a big gain.
-Blitz and blitz often on defense. You can easily overwhelm the computer in certain formations.
